3300-A
Conveyorized Automatic with Patented A-Arm Technology

**FILM TAIL TREATMENT** - Cousins smart engineering has developed an advanced cut and hold device, the A-Arm. It provides significant productivity gains and safety benefits. No clamp on the turntable and no hot wire film cutter that requires continuous maintenance. This technology is only available on a Cousins machine.

**FILM CARRIAGE** - Less film slippage means more consistent stretch and the “sticky” side of the film will always be against both the rubber rollers and the load where it belongs.

**ALL ELECTRIC** - no pneumatic lines or noisy air compressors required.

**SYSTEM CONFIGURATION** – Designed to be installed with existing product flow and conveyor layout design. Whether In-line or off-line, the automation package is designed to be in-line with conveyors using interface relays/logic or off-line standalone system using a wireless cycle start remote.

3300-A DESIGN FEATURES/SPECIFICATIONS

PRODUCTION RATE:
Rated for 40 loads per hour depending on load sizes and number of wraps

LOAD CAPACITY:
- 4000# Capacity
- 48” L x 48” W x 70” H max load size
  (consult factory for minimum height)
  NOTE: Larger load size options are available

CONVEYORS:
- 2.5” diameter rollers on 3” centers
- 50” effective roller width –
- 16.5” standard passline height
- AC Drives

CONTROLS:
- LCD Operator Interface with Diagnostics
- Separate UP/DOWN Spiral Speed Controls
- 3 Separate Wrap Programs
- Selectable Reduced Film Tension parameters for wrapping top and/or bottom of light loads
- Emergency Stop button
- NEMA 12

3 Year Warranty on Components

FILM CARRIAGE:
- Super Rapid Thread II™ 20” capacity pre-stretch film carriage
- Special Film Threading Device – Uniquely orientates the sticky side of the film against the pre-stretch rollers and the inside on the load
- AC variable speed motor
- 33% to 313% fixed stretch capability
- Carriage Descent Safety Shut-Off Device
- Superior film-to-roller contact area
- Lifetime warranty on pre-stretch rollers

TOWER DESIGN:
- Fully Enclosed & Guarded Motors
- No Exposed Cables
- Heavy Duty Formed/Structural Steel
- Electro-static powder coated paint finish
- 5 Year Warranty on Steel Fabrications
